MEMORANDUM FOR: Intelligence AD's

Mr. [REDACTED] (2)

25X1A9a

SUBJECT: Attached Draft Concerning Exchanges of
Materials with the USSR

1. The attached draft (at long last) covers the other half of the problem, as well as I can place it together from the existing documents. Again, many of the positions are designed to draw your fire or to expose gaps in our present thinking, so please sift with care.

2. Mr. Jackson has been contacting the Agency in various ways, and there is every indication of urgency still, so I would appreciate comment by c.c.b., Thursday 6 October.
